BMW X5

**Location of cabin filter:**

In front of the windshield under the hood behind the filter access panel in the center of the vehicle.

**Tools:**

Unknown or not required.

**To remove existing filter:**

1. Open the hood.
2. Locate the cabin filter access panel.
3. Remove the filter access door by turning the (2) two screws that secure the panel.
4. Remove the filter access panel by lifting upward.
5. Remove the existing dirty filter.
6. Install new filter into the filter housing.
7. Reattach the filter access panel and secure with spring screws.
8. Close hood.
