

Application: Application: Aplicación:

Mazda RX8, MPV

Location of cabin filter:

Under the dash behind the glove compartment on passenger

Tools:

Unknown or not required.

To remove existing filter:

1. Locate slider on glove compartment door and release. (Fig 1)
2. Push in on the sides of the glove compartment to disengage the retainers and lower glove compartment door. (Fig 2)
3. Through the glove compartment opening locate the filter housing. Remove front cover of filter housing by pulling towards you. (Fig 3)
4. Remove left filter first, followed by the right. (Fig 4)
5. Remove the dirty filters from the housing filter and replace with clean filters.
6. Reverse steps 1-3 to complete installation.
