

Application: Application: Aplicación:

Ford Taurus | Mercury Sable

Location of cabin filter:

In front of the windshield under the cowl vent screen on the passenger side of the vehicle.

Tools:

Phillips Screwdriver & 5/16" Nut Driver

To remove existing filter:

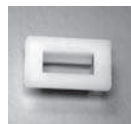

1. Release and open hood.
2. Rotate and remove the four plastic cowl vent screws (H007) located on the cowl vent screen. (Fig.1)
3. Remove the three push-on clips (H006). (Fig. 2)
4. Remove cowl vent by bowing upward in the center of the cowl vent and lift out. (Fig. 3)
5. Remove the two screws (H009) retaining the cowl top inner panel shield. (Fig. 4) Then remove shield by sliding shield toward middle of vehicle taking care not to damage the shield. (Fig. 5)
6. Remove dirty cabin air filter. (Fig. 6)
7. Reverse the procedure to install new cabin filter.
