

Application: Application: Aplicación:

Buick Allure, Lacrosse, Century, Regal | Chevrolet Impala, Monte Carlo | Pontiac Gran Prix
Oldsmobile Intrigue (with automatic temperature control air conditioning) (avec climatisation à contrôle automatique de température)
(con acondicionamiento de aire de control automático de temperatura)

Location of cabin filter:

In front of the windshield under the cowl vent screen on the passenger side of the vehicle.

Tools:

Standard Screwdriver

To remove existing filter:

1. Raise hood and turn off ignition switch when the windshield wipers are in the up position. (Fig. 1)
2. Disconnect washer pump hose from fender rail and cowl screen. (Fig. 2)
3. Reposition hood weather-strip from right side of vehicle (peel back half way to center).
4. Remove air inlet grill retainers (H005 and H004). (Fig. 3)
5. Remove air inlet grill by bowing upward in the center of the inlet grill and lift out. (Fig. 4)
6. Remove compartment air filter. (Fig. 5)
7. Reverse procedures 2 thru 7 to install new filter.
8. Return windshield wipers to park position.
