

Application: Application: Aplicación:

Ford Escape | Mazda Tribute | Mercury Mariner

Location of cabin filter:

In front of the windshield under the cowl grille and the cabin filter housing cover on the passenger side of the vehicle.

Tools:

Unknown or not required.

To remove existing filter:

1. Turn off the ignition switch with the wipers in the vertical position.
2. With hood closed, gently remove the four plastic screw caps and screws at the base of the passenger side of the windshield retaining the cowl grille. (Fig. 1)
3. Open the hood and remove the four plastic screw fasteners along the front edge of the cowl grille. (Fig. 2)
4. Lift and hold open the cowl grille while disengaging the clips retaining the cabin filter housing cover and remove the cover by tilting the front edge up and pulling forward. (Fig 3 & 4)
5. When inserting the new filter into the filter cavity make sure the edge with the black rubber seal is facing down as shown in detailed view. (Fig. 5)
6. After filter is placed into filter housing gently press down on the filter to insure that the filter is seated properly in the filter housing.
7. To complete installation reverse steps 1 thru 4.
