

Application: Application: Aplicación:

Lexus ES350, GS300, GS350, GS430, GS450H, IS F, IS250, IS350 | Scion XD | Toyota Avalon, Camry, Highlander, RAV4, Tundra, Yaris

Location of cabin filter:

Under the dash on the passenger side of the vehicle behind the glove compartment.

To remove existing filter:

- *1. Set the air conditioning system to the RECIRCULATING mode. The air conditioning filter case CANNOT be removed with the system in the OUTSIDE AIR mode.
2. Turn the engine off.
3. Open the glove compartment.
4. Unclip the damper rod on the right side of the glove compartment. (Fig. 1)
5. Push outward on both the front and rear of the glove compartment to disengage retainers and lower glove compartment. (Fig. 2 and 3)
6. Through the glove compartment opening, locate the filter cover and remove.
7. Remove dirty filter and replace with clean filter.
8. Reverse steps 1-4 to complete installation.

*Step 1 pertains to Lexus GS and IS series.
