

**Application: Application: Aplicación:**

Hyundai Tiburon, Elantra, Entourage | Kia Sedona

**Location of cabin filter:**

Under the dash on the passenger side of the vehicle behind the glove compartment.

**Tools:**

Phillips Screwdriver

**To remove existing filter:**

1. Locate and remove the fixing pin on the right side of the glove compartment. (Fig. 1)
2. Flip the glove compartment down by pressing firmly in on both sides of the glove box. (Fig. 2)
3. Remove retaining bar covering the filter housing by removing the screws on either end. (Fig. 3)
4. Open filter housing access door by pressing on both latches on bottom edge of door. (Fig. 4)
5. Remove dirty filter by pulling straight out on handle and replace with clean filter. (Fig. 5)
6. Reverse steps 1-5 to complete installation.

**NOTE: Filter is keyed to ensure proper orientation. DO NOT FORCE.**
